<i>1. Opening home page where i suggest user to log in.</i>	<i>3</i>
<i>2. User is passing his Name and Surname.....</i>	<i>3</i>
<i>3. User can choose the quizzes and see how many questions it has.</i>	<i>4</i>
<i>4. Passing the test</i>	<i>4</i>
<i>5. Showing final score.....</i>	<i>5</i>
3. Conclusion	5

1. Task

1. Choose framework
2. Create web application
 - 2.1. Hacking quizzes
3. Choosing different quizzes
4. Showing score

2. Result

This laboratory work was interesting and not so easy for me because it is my first experience in working with NextJs and other new libraries. I created a web application where user can pass quizzes. However now I understand the logic of how functions and pages work.

1. Opening home page where i suggest user to log in.

Football

Question 1
Who scored the biggest amount of goals in football?

Messi
Pele
Bitsan
Ronaldo

Next

Incorrect answer

5. Showing final score

3. Conclusion

Results of my job from my point on view are good because personally I am not fete good in web but with my passion to pass the course I have learned new things and made application by using NextJs and also working nu writing functions, HTML elements and CSS selectors.
